Attendance breakdown

Daily span (hours)

Average login 11:26 | Average logout 15:10 | 3 days needing review | 7 attendance punches

All dates and times use IST. Attendance rate = present / (present + absent); weekly holidays and recorded leave are excluded. Today is provisional. Span is elapsed login-to-logout time, without deducting breaks; it is not paid hours. Missing punches can reflect incomplete history. Employment dates, shift targets and public holidays are not configured.
